PROFILE

Highly skilled Frontend Developer with a strong proficiency in HTML, CSS, JavaScript, and React.js. Possessing 1 year of experience in designing and implementing responsive and user-friendly web applications. Adept at collaborating with cross-functional teams to deliver innovative and visually appealing solutions. Proven ability to translate UI/UX designs into pixel-perfect interfaces while ensuring seamless integration with backend systems. Demonstrated expertise in optimizing website performance and ensuring compatibility across various browsers and devices. Committed to staying up-to-date with the latest frontend technologies and best practices. Looking to leverage my technical expertise and creativity to drive impactful digital experiences.

WORK EXPERIENCE

Associate Software Engineer

TestYantra Software Solutions, Bangalore   August 2022 - Present

- Designed and developed responsive and visually appealing web applications using HTML, CSS, JavaScript, and React.js.
- Implemented best practices for web performance optimization, including code minification, image compression, and lazy loading, resulting in improved page load times and user satisfaction.
- Ensured cross-browser and cross-device compatibility by thoroughly testing and debugging frontend code to deliver consistent user experiences.
- Utilized version control systems (e.g., Git) to manage code repositories and facilitate collaboration within the development team.
- Successfully delivered projects within established timelines, effectively managing priorities and adapting to changing project requirements.
- Utilizing modern web technologies, including media queries, to ensure adaptability and optimal functionality on mobile, tablet, and desktop platforms.

Projects

- **Prospiders** - A static educational website for students to get information about the new Batches and the courses offered by the institution. Build using React Js, CSS, Bootstrap, and RestApi used for contact form.

- **TestFreshers** - A fully functional web application for institutions to organize quizzes, Tests with different Types of questions like MCQ or Programming, and more and assign them to students to keep track of students' performance.

- **Sereno Barn** - A beautiful static website built using React Js, CSS, and AOS library for animations to attract customers for the business.
